## About Us

Grand Coulee Brewing wants to provide an amazing experience for your taste buds as you sip on fresh local beer. What makes Grand Coulee different from other beers is that we offer a wide variety of flavors that are unique. The beer will be sold in 24oz bottles, which are larger than the standard size. The prices of the bottles range between the flavors anywhere from \$5-\$9. Grand Coulee Brewing wants to start small in a few farmers markets in Washington and eventually get big enough to sell in small shops around the country. Focused on beer loving individuals that want to try new flavors and experience something they have not before. These people are the ones that love going to farmers markets and are adventurous with their taste buds.
